FROM PRESIDENT'S DESK

Er.K.N.Agrawal

It gives me great pleasure that this issue of News Bulletin of the Institution is being brought out for about one year period of October 2021 to November 2022. Our members are aware that the IITArb - Institutional Arbitration Rules, had been published on our web site and their printed version was also published, which was circulated among the State Centres, early this year. The State Centres need to intensify their efforts to introduce these Rules to various government departments and PSUs concerned in their respective jurisdiction and invite them to Institutional Arbitration. A follow up of such efforts is important for effectively driving home the point.

The Arbitration Centre had been established in the premises of Delhi State Centre and an honorary Registrar General was also installed early this year, who has been making due efforts in contacting various departments engaged in construction activities and inviting them to avail the services of IITArb - Arbitration Centre for dispute resolution through institutional arbitration.

The issue of generation of funds for the Institution cannot be overemphasized, as the finances of the Institution have come down to a low level after the Institution acquired its own premises. Let every fellow member make attempts to enroll new Fellows/Members and encourage construction organizations to take the Institutional Membership of our Institution. Besides, every Council Member to continue efforts vigorously for a membership drive and also lend their might in popularizing institutional arbitration through IITArb.

With a view to encourage technical activities among the members of our Institution, it was decided to publish a technical journal periodically, say every three months, containing articles contributed by our members many of whom are highly accomplished professionals. An Editorial Board has been constituted under the able guidance of Er. G.C. Kabi and all desirous members may contact him for inclusion of their articles for publication in the Journal.

I wish every member of the Institution good health as also season's greetings for the upcoming festive season.
